

MAKE BUILDINGS LOOK BETTER AND LAST LONGER

AU-1 COMMERCIAL CONSTRUCTION SEALANT

EXCEEDS ASTM C-920 & TCBSAT-30*

Introducing **AU-1**, a premium-grade, high-performance, weatherproof, elastomeric construction sealant. It's easy to apply, tool and clean up saving you time and money. With excellent adhesion and long term durability **AU-1** makes you and your work more efficient. It exhibits exceptional UV resistance, and maintains high elasticity in all climates. **AU-1** bonds to substrates on a molecular level creating superior adhesion that is unaffected by years of exterior exposure. When you need solid gold performance go for **AU-1**.

SPECIFICATIONS:

- ASTM C-920 Class 25
- ASTM C-834 -18°C
- Fed Spec TTS-00230C
- AAMA 808.3
- TCBSAT-30*

FEATURES & BENEFITS:

- Ready to use, no mixing, reduces prep time
- No primer required for most substrates reducing application time
- Seals Vertical and Horizontal joints up to 2" wide
- 50% joint movement ($\pm 25\%$) and 800% elongation
- Exceptional resistance to weathering, UV and extreme joint movement
- Excellent paintability

USES:

- Expansion and control joints
- Concrete panel joints
- Windows, doors and siding
- Tilt-wall joints
- Precast units
- EIFS

SUBSTRATES:

- Concrete
- Masonry
- Stucco
- Glass
- Metal
- Building wraps
- Fascia
- Flashing

* TCBSAT-30 is the Tower Common Building Substrate Adhesion Test. **AU-1** is applied to 30 common building substrates and tested according to ASTM C-794. **AU-1** exceeds the minimum adhesion value as required by ASTM C-920 for all substrates.

TOWER
SEALANTS

Exceptional resistance to weathering, UV, and extreme joint movement.

A SIZE FOR ANY APPLICATION:

- 10.1 oz. cartridge
- 20 oz. sausage
- 5 gal. pail
- 55 gal. drums

A new standard in construction sealants
